

Mitel IP Desktop Phones and Peripherals

Flexible suite of IP phones with robust
functionality for any sized office

Mitel's family of IP phones and peripherals responds to the specialized and differing requirements of users, workgroups, departments, and branches across your organization with a range of desktop devices.

From affordable, entry-level IP phones to sophisticated network devices - including wireless handsets, Gigabit Ethernet and IP DECT connectivity accessories, conference units, and PC-based attendant consoles - Mitel has the right solution for your needs.

MiVoice 5304 IP Phone

The MiVoice 5304 is a cost-effective, entry-level display phone that provides access to the features and applications enabled by Mitel's IP-based communications platforms. A dual-mode, dual-port, two-line phone with a 40-character backlit display, the MiVoice 5304 IP Phone is specifically suited to areas where a small footprint is required, such as cruise ship cabins, hotel guest room phones, university dorms, classrooms or beside a cash register in a retail environment.

MiVoice 5312 IP Phone

The MiVoice 5312 is an enterprise-class dual-mode and dual-port IP Phone that provides intuitive access to sophisticated call handling and converged applications. With multiple lines, a full-duplex speakerphone, 40-character backlit display, and user-programmable access to features and applications, the 5312 IP Phone is ideal as a teleworker phone.

MiVoice 5320 IP Phone

An economical, entry-level, self-labeling enterprise phone with a large graphics display and built in speakerphone, the 5320 IP Phone is specifically designed to deliver productivity and customer-enhancing applications and services to the user desktop. Offering features for unified communications, speech recognition, PC integration, contact center, and remote voice and data applications, the MiVoice 5320 is ideal for enterprise executives, managers, and employees, and can be used as an ACD agent, as a supervisor phone, or as a teleworker phone.

MiVoice 5330e IP Phone

This full-featured, enterprise-class IP phone with embedded Gigabit support provides a large backlit display, 24 programmable and self-labeling keys, superior wideband audio, and a built-in HTML toolkit for desktop applications development. Desktop applications, including Mitel Unified Communicator Express (UCX), MiCollab Client, and Mitel Live Directory, increase worker productivity by providing tighter integration between desktop devices and existing business tools. The 5330e IP Phone is ideal for enterprise executives, managers, and employees, and can be used as an ACD agent, as a supervisor phone, or as a teleworker phone.

MiVoice 5340e IP Phone

The MiVoice 5340e is an executive-class IP Phone with embedded Gigabit support, wideband audio, and a built-in HTML toolkit for desktop applications development. The MiVoice 5340e offers a large backlit display with 48 programmable, self-labeling keys and six intuitive call state-sensitive softkeys. The 5340e IP Phone is ideal for any enterprise executive or manager, hot desk users, teleworkers, and contact center agents and supervisors.

MiVoice 5360 IP Phone

The MiVoice 5360 IP Phone features a stunning, large, color touch display to graphically deliver rich applications right to your desktop. The MiVoice 5360 offers dual gigabit Ethernet ports and 48 programmable, multi-function self-labeling keys. Embedded applications and an HTML Desktop Toolkit support customized applications development delivered directly to the touch display. The user-friendly MiVoice 5360 is equipped with a Gadget Sidebar to enable one-touch access to embedded or internet-based content and applications. The MiVoice 5360 IP Phone is ideal for any employee, enterprise executive or manager, teleworker, and contact center supervisor.

MiVoice 5610 IP DECT Handset / MiVoice IP DECT Stand

This unique accessory offers unprecedented convenience and personal Area mobility for IP Phone users. The MiVoice 5610 DECT Handset, with full dial pad and vibrant, illuminated color screen, gives users the freedom and mobility to move away from their desk within their office or adjacent offices. The IP DECT Stand simply snaps onto a Mitel IP Phone and supports up to eight MiVoice 5610 DECT Handsets. The MiVoice 5610 DECT Handset and IP DECT Stand is the ideal mobility solution in hospitality, education, healthcare and retail, as well as small, medium and enterprise business markets.

Mitel Gigabit Ethernet Stand

Ideal for users with high bandwidth requirements, The Mitel Gigabit Ethernet Stand delivers the latest advancements in Gigabit Ethernet connectivity for supported IP phones in a cost-effective manner. This unique peripheral device easily attaches to compatible MiVoice IP phones in the form of a phone stand and provides a Gigabit Ethernet LAN port to connect to the Gigabit switch, a Gigabit Ethernet PC port, and a 10/100 MB Ethernet connection to the IP Phone. The Mitel Gigabit Ethernet stand protects your capital investment by enabling your IP phones to migrate as your network evolves.

Mitel Line Interface Module

The Line Interface Module allows the connection of an analog line to Mitel IP Phones to enable local line selectability, emergency call diversion for remote workers, or failover capability for IP phones. It is ideal for remote teleworkers or users requiring phone access in the event of LAN failures. The patented Line Interface Module enhances Mitel's Teleworker service and extends Mitel's resiliency strategy for IP communications from the core of the network to the desktop.

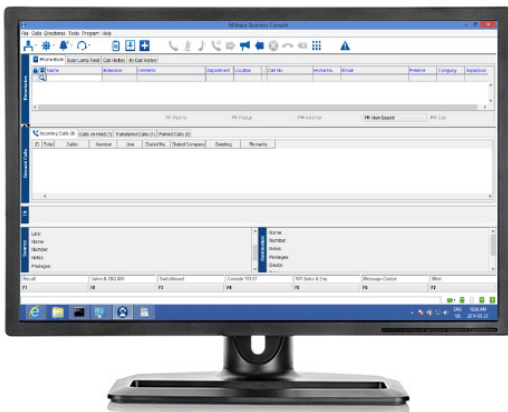

Mitel Programmable Key Modules

Mitel Programmable Key Modules (PKMs) allow users to add 12- or 48-button modules to monitor and manage multiple lines beyond the capacity of the IP Phone. The PKMs can easily add up to 96 buttons to the existing phone's keys and are supported across a range of IP Phones.

Mitel Cordless Accessories

Mitel's Cordless (DECT) Module and Bluetooth® Module are unique accessories that offer unprecedented convenience and corridor mobility for supported Mitel IP Phone users. DECT Cordless Handsets and Headsets allow the user to have personal area mobility with a range of up to 300 feet from their desk within their office or adjacent offices. Third-party Bluetooth multipoint headsets can be used with both a Mitel IP Phone and a user's cell phone, augmenting Mitel's mobility solution for users who want to leverage Mitel's Dynamic Extension capability.

MiVoice Business Console

This entirely PC-based IP console and administration application features an intuitive graphical user interface (GUI) that includes screen-based call status and call handling prompts. Features include direct station select (DSS) and busy lamp field (BLF) status for up to 5,000 extensions, color customizable phonebook data fields, incoming caller identification, transferred calls and calls on hold screens, and unique functionality such as bulletin board and scratch pad. Presence and instant messaging support allow the console operator to see if someone is away from their desk, busy, or does not want to be disturbed. Instant messaging support allows operators to quickly send the user a message to let them know they have a call, or to ask them a quick question. The MiVoice Business Console is ideal for high volume, call handling environments using the MiVoice Business platform.

MiVoice 5300 Series IP Desktop Phones Feature Matrix

For your convenience, here is a matrix of the current MiVoice 5300 IP Phone series that allows you to compare the features and functionality of each IP phone at a glance.
